Experience

Front-End Developer | Freelance - Vancouver, BC | 07/2022 - Current

- I am working on the development of a CRM system using Angular and Nebular.
- I am implementing a new functionality and improving the existing one.
- I continue self-education and training to keep up with industry changes and trends.

Front-End Developer | BN Digital - Lviv, Ukraine | 01/2022 - 06/2022

- Created successful websites that met requirements for objectives such as load speed and design.
- Brought mock-ups to life with React JS and Less.
- Created applications using the SPA architecture.
- Gathered, defined and translated client requirements into product stories and actionable tasks.
